Setting Goals That Work

7 Keys to Accomplishing Your Goals

1. Keep a mental picture of your goal.
2. Write down your goal.
3. Plan for success by making sure you break down your goal into smaller steps and include these steps on your "To Do" lists.
4. Find scriptures that support your goal. Meditate on the scripture and post them nearby to read daily.
5. Set up a calendar of milestones. Mark specific dates for accomplishing major aspects of each goal and be sure to record results.
6. Pray and ask God to help you discern who to ask for help with achieving your goal.
7. Be courageous and recognize when fear is present. Keep fear at bay and never allow your emotions to lead your decisions.
